

## CREATING A DOG PROOF GARDEN

**If you want dog to have fun in the garden but who don't want the hassle of having to wash muddy paws throughout the day. Artificial Grass can solve the problem once and for all.**

### THE CHALLENGE

- With two large poodles living in her home, our client's back garden quickly turned into a quagmire in poor weather.
- When the dogs were let out they would quickly become covered in mud taking the owner a lot of time to get them clean
- Garden left looking messy, dirty and disorganised, so the pet owner rarely used the space for anything other than exercising the dogs.

### THE SOLUTION

- ✓ Two days clearing the garden of mud and lawn, before laying our hardwearing 'Kings' grass on the surface.
- ✓ This completely transformed the space, leaving it looking clean, tidy and well-cared for in all weathers.
- ✓ Artificial grass is tough and durable, dogs won't be able to dig it up, get it muddy or otherwise damage the look of the lawn.
- ✓ Dogs are being let out into an enclosed garden to go to the toilet, we also supply a product called 'Pet Wee Away', which neutralises the odour of ammonia. However, if your garden is open and well ventilated, you probably won't need to spray as the smell will disappear naturally.

**Request a FREE sample - call us or email today**

### SERVICES

- 📄 Resurfacing
- 🔧 Rebinding
- 🔧 Part/Full Surface Rejuvenation
- 📄 Infill replacement

### INSTALLATIONS

- 📄 Grass Install

### CONCLUSION

The pet owner was so happy with the result, they've gone on to recommend artificial grass to a number of other local dog owners. If you're currently battling against a doggy garden, or if your pooches love nothing better than digging for bones in the mud, artificial grass could be the perfect solution.
