

## IDEAL FOR FAMILIES

**Like many families in the UK life can become busy with work, school runs, family activities and hobbies. When the weekend comes around we want to enjoy our free time rather than be maintaining our gardens.**

### THE CHALLENGE

- Children and animals don't mix well with pristine lawns.
- An even lawn is an important feature.
- Wear and tear can easily make your grass yellow and patchy and unusable
- Trampolines and play equipment can kill off the grass in large patches.
- Patchy, uneven gardens not only look unsightly but can make dangerous areas for young children to play in.

### THE SOLUTION

- ✓ Once the existing lawn is removed a consolidated base is installed for perfect drainage.
- ✓ No more muddy puddles trampled back into the house.
- ✓ With very little maintenance needed time can be spent enjoying the outside space.
- ✓ Enjoy watching the family have fun in the fresh air without the aftermath of a patchy, worn lawn!
- ✓ Older children can play sports without sliding in mud patches in front of a goal and ruining the lawn.

### INSTALLATIONS

-  Football at Home
-  Hockey at Home
-  Golf at Home
-  Tennis Courts
-  Grass Install
-  Boarders & Planting
-  Fencing
-  Lighting
-  Play Areas

### SERVICES

-  Regular Maintenance
-  Repairs
-  Chemical Treatment
-  Deep Clean
-  Pressure Washing
-  Resurfacing
-  Rebinding
-  Part/Full Surface Rejuvenation
-  Infill replacement

### CONCLUSION

Spend more time hosting summer BBQs and other social events instead of maintenance! Whether your garden gets ten minutes or ten hours of sunshine, your lawn will continue to look good all year round and for years to come. Around 95% of sufferers are allergic to grass pollen so an artificial alternative can help alleviate allergies.
