

KINGS

Artificial Grass for Landscaping

PRODUCT SPECIFICATION

Pile Height	28mm
UV Stabilisation	> 10 years in Europe
Fibre Shape	Straight & Curled
Fibre Weight/dtex	PE Monofilament 15,400 dtex
Yarn Weight	1,407 gram/sqm
Colour (s)	3 x Green/1 x Beige
No of stitches/10cm ²	13

BACKING

Primary Backing	100% Woven Polyprop
Secondary Backing	'UltraBak' SBR Latex
Backing Weight	1065 gram/sqm
Total Product weight/sqm	2472 gram/sqm

YARN A - STRAIGHT PILE

Yarn Polymer	Pro-Tech Yarn Technology
--------------	--------------------------

YARN B - THATCH PILE

Yarn Polymer	Elite Grade Polyethylene
--------------	--------------------------

GENERAL DETAIL

Total Thickness	30mm
Roll Length	Minimum 25m
Roll Width	Minimum 4m
Country of manufacture	UK

QUALITY & TESTS

FIFA Requirements	None
Turf Bind	>3kg Newton
Water permeability	60 litre/min/sqm
Colour Fastness	According to CEN standards

INSTALLATION & MAINTENANCE

Infill	Yes
Tape	Yes 30cm wide
Sand	Kiln Dried
Rubber	N/A

Glue
Experience

Envirostik® artificial grass glue
Please use experienced installers to install this product.

Maintenance

Artificial grass is a low maintenance product compared to natural turf. Excess debris and pet excrement needs to be removed.

ABOUT ARTIFICIAL GRASS CAMBRIDGE LTD

Artificial Grass Cambridge are experts in all areas of artificial grass and synthetic sports surfaces.

Our sports division maintain, repair and rejuvenate tennis courts, full size football, rugby & hockey pitches, cricket wickets & nets and running tracks. We are a trusted contractor in many prestigious schools, universities & facilities across East Anglia and London.

Our experienced domestic garden install teams transform outdoor areas from gardens, nurseries, schools and commercial spaces using only high quality artificial grass.
